## PROFILE

Recent Computer Science graduate with 3+ years of hands-on experience designing, coding, testing, and deploying web applications using JavaScript, React, Python, Java, and SQL. Demonstrated ability to build responsive, accessible, and user-focused solutions in Agile, collaborative teams for both real and simulated clients. Customer-facing experience at Apple and Nova Scotia Power fuels a consulting mindset, strong troubleshooting skills, and a commitment to delivering reliable digital experiences for diverse users.

## WORK EXPERIENCE

### Apple

October 2021 - Present

#### *Specialist, Halifax, NS*

- Demonstrate leadership by mentoring new team members on product and service standards.
- Deliver technical guidance and solutions by actively listening to needs and clearly voicing expertise.
- Guide customers through complex purchases, consulting on the best technology solutions.

### Nova Scotia Power

#### *Digital Experience Co-Op*

September 2025 - April 2025

Delivered improvements to nspower.ca focusing on web functionality, user experience, and content governance within the CMS through two consecutive co-op terms.

- Updated and standardized the [nspower.ca](#) website with features using custom code and Bootstrap, ensuring rigorous accessibility and responsive design across different browsers and devices.
- Authored a governance document to streamline and standardize web content management processes.

### Best Buy

October 2019 - March 2021

#### *Computing Solutions Advisor, Halifax, NS*

Provided technical guidance and tailored computing product recommendations based on customer needs.
